Strategic HR Head and People & Culture leader with 5+ years of progressive HR experience, currently leading the full employee lifecycle for a 250+ employee travel company. Goes beyond recruitment and administration to build workplace culture: designs onboarding and engagement programs, leads company-wide events from team building and monthly Town Halls to the annual Year-End Party, and strengthens partner relationships through B2B engagement. Combines global HR shared-services discipline from Accenture and Marsh McLennan (Mercer) with hands-on HR technology, having built the company's in-house HRIS and payroll system (PaySync PH) and an AI-powered recruitment portal (Gladex Careers). Strong in talent acquisition, employee relations, performance management, total rewards and DOLE / BIR compliance.
